Guidelines Established for Consideration of Regional Re-Opening

Amid Coronavirus Pandemic
NYS Marketplace extends special enrollment; Additional face coverings; iPads for non-public schools; Nursing Homes survey; And More!

**NYS Confirmed: 318,953**  
**NYS Deaths: 19,415**  
**NYC Confirmed: 175,651**  
**Brooklyn Confirmed: 47,183**

**NYS: GOVERNOR CUOMO**

- Governor Cuomo announced plans to re-open New York State which will be on a regional basis. There are **four core factors** that will determine if a region is ready to re-open: new infection rate, healthcare capacity, diagnostic testing capacity, and contact tracing capacity.
  - **New Infections**: per CDC guidelines, regions must have at least **14 days of decline** in total net hospitalization and deaths on a 3-day rolling average. Regions where there are a few COVID-19 cases, there can be no more than **15 net new total hospitalizations** or **5 new deaths** on a 3-day rolling...
average. Region must have fewer than two new COVID-19 patients admitted per 100,000 residents per day.

- **Health Care Capacity**: Region must have a total hospital and ICU bed capacity of 30% available. Each hospital must have at least a **90-day** supply of PPEs.
- **Diagnostic Testing Capacity**: Region must have capacity to conduct **30 diagnostic tests per 1000 residents per month**.
- **Contact Tracing Capacity**: Region must have a baseline of **30 contact tracers per 100,000 residents**, and additional tracers based on projected number of future cases.

- Phased re-opening of businesses:
  - **Phase 1**: construction; manufacturing and wholesale supply chain; select retail (curbside pickup)
  - **Phase 2**: professional services; finance and insurance; retail; administrative support; real estate/rental leasing
  - **Phase 3**: restaurants/food services; hotels/accommodations
  - **Phase 4**: arts/entertainment/recreation; education

- Outline of **Safety Precautions** for businesses to have in place prior to re-open:
  - Adjust workplace hours to reduce density;
  - Enact social distancing protocols;
  - Restrict non-essential travel for employees;
  - When in frequent contact, employees and customers must wear masks;
  - Enact health screening process for individuals to enter workplace;
  - Trace, track and report cases; and
  - Develop liability processes.

- **New York State Marketplace** special enrollment will remain open through **June 15, 2020**
- For more information click [here](#).
Mayor de Blasio announced that New York City will increase the distribution of face coverings to the public. A total of **7.5 million face coverings will be distributed.**
- **5 million** 3-ply face coverage (reusable if they remain dry)
- **2.5 million** cloth face coverings (reusable)
- Face coverings will be distributed at parks, Grab and Go meal sites, Staten Island Ferry, NYCHA and Mitchell-Lama buildings, grocery stores, and other areas where social distancing will be enforced.

**iPads** will be offered for free to **students with disabilities** that are in **non-public schools.** Approximately **35,000** students have been identified as eligible. For more information to obtain an iPad click [here](#).
Mayor de Blasio was pleased to report that all three tracking indicators were down which is a good sign: admissions (88), ICUs (632), and confirmed tests citywide (17%).

AARP NURSING HOME SURVEY

AARP is conducting a survey to obtain information about the operations within nursing homes. Individuals who have loved ones in a nursing home are asked to inquire with the nursing home and then report to AARP. There are 6 questions to ask. The survey to complete may be found here.

NATIONAL MILITARY APPRECIATION MONTH

The month of May is National Military Appreciation Month. This year, we have so much to be appreciative for. The United States has often been told of the might of its military. But when they are actually called to duty to execute whatever task that is placed before them with precision, it is an amazing feeling of pride. The military has partnered with healthcare workers and the government to battle the Coronavirus which has plagued our nation and the world. We owe a debt of gratitude to each and every one of them and to all other military personnel who are ready every day to protect our country.
FLATBUSH AVENUE WALK-IN

COVID-19 TESTING SITE

This testing site is by appointment only.

You must contact the NYS Department of Health at 1-888-364-3065 to schedule an appointment.

Brookdale Family Care Center
1095 Flatbush Avenue
Brooklyn, NY 11226

For more information about this or any community concern, contact Assemblymember Bichotte’s district office
718-940-0428 | bichotte@nyassembly.gov | www.nyassembly.gov/mem/Rodneyse-Bichotte
We have a drive through and walk-in COVID-19 testing site in the 42nd Assembly District. You must make an appointment before visiting the center or you will be turned away. To make an appointment you must contact the NYS Department of Health at 888-364-3065.
THANK YOU ESSENTIAL WORKERS
During these unprecedented and difficult times, we thank our essential workers who are serving on the front lines. Today, we thank our Farmers for growing and managing the food that we can't live without.

AVOID SCAMS
- Notify NYC: Beware of COVID-19 scams!  
- Report **price gouging** to 311 or [NYC.gov/dcwp](https://nyc.gov.dcwp). You can also file a complaint to the Attorney General's office by filling out a [complaint form](https://www.spoiler.com).  
- **NYS Price Gouging Hotline**: 800-697-1220.  
- CDC staff will **NOT** go door-to-door. If you experience this, call 911.

### SERVICES AND RESOURCES

Due to the impact of COVID-19 on New York City's workforce, the City of New York has developed a list of resources for those who may be unemployed due to COVID-19 or are seeking additional assistance. The list below will be updated frequently.

It has information on the following categories:
- **Employment Resources**
- **Food Assistance**
- **Health & Medical Assistance**
Financial Assistance
Rent Arrears and Public Assistance
Emotional Support & Spiritual Care
Other Assistance

Visit this website for resources.

**NYS Department of Health Hotline** for people who want to be assessed and get appointment for test *(888-364-3065)*. NYC residents should call *(844-692-4692)*.

**Volunteer to Support Others:**

**Free Internet Services:**
Charter is offering free spectrum broadband and WiFi access for 60 days to household with K-12 and/or college students who do not already have Spectrum broadband subscription. To enroll, call **844-488-8395**.

Until further notice, all Xfinity WiFi Public Hotspots are now open to everyone on the "xfinitywifi" SSID. For more information visit here.

**Immigration:**
If you or a loved one is in need of free Immigration assistance, please call **CUNY Citizenship Now** at 646-664-9400 or text at 929-334-3784, Monday to Friday from 9:00 AM to 5:00 PM. Visit their website for more information.

WHAT TO DO IF YOU ARE SICK WITH COVID-19
What to do if you are sick with coronavirus disease 2019 (COVID-19)

If you are sick with COVID-19 or suspect you are infected with the virus that causes COVID-19, follow the steps below to help prevent the disease from spreading to people in your home and community.

Stay home except to get medical care
You should restrict activities outside your home, except for getting medical care. Do not go to work, school, or public areas. Do not use public transportation, ride-sharing, or taxis.

Separate yourself from other people in your home
As much as possible, you should stay in a specific room and away from other people in your home. Also, you should use a separate bathroom, if available.

Call ahead before visiting your doctor
If you have a medical appointment, call the healthcare provider and tell them that you have or may have COVID-19. This will help the healthcare provider’s office take steps to keep other people from getting infected or exposed.

Clean your hands
Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, clean your hands with an alcohol-based hand sanitizer that contains at least 60% alcohol, covering all surfaces of your hands and rubbing them together until they feel dry. Soap and water should be used preferentially if hands are visibly dirty. Avoid touching your eyes, nose, and mouth with unwashed hands.

Avoid sharing personal household items
You should not share dishes, drinking glasses, cups, eating utensils, towels, or bedding with other people in your home. After using these items, you should wash them thoroughly with soap and water.

Monitor your symptoms
Seek prompt medical attention if your illness is worsening (e.g., shortness of breath or difficulty breathing). Before seeking care, call your healthcare provider and tell them that you have, or are being evaluated for, COVID-19. Put on a facemask before you enter the facility. These steps will help the healthcare provider’s office keep other people from getting infected or exposed.

Ask your healthcare provider to call the local or state health department. Persons who are placed under active monitoring or facilitated self-monitoring should follow instructions provided by their local health department or occupational health professionals, as appropriate. https://www.cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html.

Discontinuing home isolation
Patients confirmed to have COVID-19 should remain under home isolation precautions until the risk of secondary transmission to others is thought to be low. The decision to discontinue home isolation precautions should be made on a case-by-case basis, in consultation with healthcare providers and state and local health departments. Current information on COVID-19 is limited; home precautions are conservative and based on general recommendations for other diseases, like Middle Eastern Respiratory Syndrome (MERS).

For more information: www.cdc.gov/COVID19
Health officials are working tirelessly to protect public health and contain this virus. And, as your representative in Albany, I am working to ensure that our state is putting the health and safety of our families first.

Remember COVID-19 can affect any community and we must stand by one another during this time, not alienate, threaten or discriminate against others.

For questions you can also reach out to the New York State’s novel coronavirus hotline at 1-888-364-3065. For continuous updates, you can visit the following websites:

- Center for Disease Control and Prevention (CDC)
- World Health Organization (WHO)

The CDC also now has the option for you to sign up for weekly updates on COVID-19.
